<b>Objective</b>	Seeking internship or full-time position as a software developer, utilizing full-stack development skills in a dynamic environment .	
	<p>When I started GuitarDistrict.com I had my first taste of how what I code can be used by anyone. I used HTML, CSS, Javascript, PHP in addition to working with API's (eBay, PayPal, Amazon, ProStores). It was a startup environment where smart thinking, meeting goals and customer service were a day in the life.</p> <p>At General Assembly I greatly expanded my knowledge by incorporating Ruby, Rails, jQuery, Git/GitHub (and much more) into my existing stack. It was incredible being in a truly immersive coding program where we were teachers and students, partners and leaders, thinkers and tinkerers.</p>	
<b>Technical Skills</b>	<p><b>Languages/Frameworks:</b> Ruby, Rails, Sinatra, Javascript, PHP, HTML5 CSS3</p> <p><b>Database:</b> MySQL, PostgreSQL</p> <p><b>Code Management:</b> Git, Git Hub</p> <p><b>APIs:</b> Google Maps, Twitter, PayPal, OMDb, Facebook, Leaflet, eBay</p> <p><b>Other:</b> jQuery, AJAX, Aperture, Bootstrap, Isotope, Testing (RSpec/Mocha), GIMP, Heroku</p> <p>... learning more all the time</p>	
<b>Some Projects</b>	<a href="#">Hacker Corral</a> <a href="#">Defaced</a> <a href="#">Tog's Twitter</a> <a href="#">Guitar District</a>
