Objective	Seeking internship or full-time position as a software developer, utilizing full-stack development skills in a dynamic environment.	
Summary	<p>When I started GuitarDistrict.com I had my first taste of how what I code can be used by anyone. I used HTML, CSS, Javascript, PHP in addition to working with API's (eBay, PayPal, Amazon, ProStores). It was a startup environment where smart thinking, meeting goals and customer service were a day in the life.</p> <p>At General Assembly I greatly expanded my knowledge by incorporating Ruby, Rails, jQuery, Git/GitHub (and much more) into my existing stack. It was incredible being in a truly immersive coding program where we were teachers and students, partners and leaders, thinkers and tinkerers.</p>	
Technical Skills	<p>Languages/Frameworks: Ruby, Rails, Sinatra, Javascript, PHP, HTML5 CSS3 Database: MySQL, PostgreSQL Code Management: Git, Git Hub APIs: Google Maps, Twitter, PayPal, OMDb, Facebook, Leaflet, eBay Other: jQuery, AJAX, Aperture, Bootstrap, Isotope, Testing (RSpec/Mocha), GIMP, Heroku ... learning more all the time</p>	
Projects	<p>Hacker Corral Defaced Tog's Twitter Guitar District Visit my profile page, tejas-mehta.com for details</p>
